SUPPLEMENTARY INFORMATION:

I. Abstract

NASA's founding legislation, the Space Act of 1958, as amended, directs the Agency to expand human knowledge of Earth and space phenomena and to preserve the role of the United States as a leader in aeronautics, space science, and technology. The NASA Office of Education has three primary goals (1) strengthen NASA and the Nation's future workforce, (2) attract and retain students in science, technology, engineering and mathematics, or STEM, disciplines, and (3) engage Americans in NASA's mission. This regular clearance will enable the NASA Office of Education to fulfill federally mandated reporting on its education activities and investments portfolio as well as selected Agency annual performance indicators.

This information collection will consist of project activity-level data submitted by program managers external to NASA, but who are responsible for reporting to NASA on the programs they manage that are within the NASA investments portfolio. Pertinent examples of this data include number of participants, duration of activity, and institution location of the activity.

II. Method of Collection

Electronic and paper

Type of review: Regular Clearance

Affected Public: Individuals

Estimated Number of Respondents: 844

Estimated Annual Responses: 3,376

Estimated Time Per Response: 60 min

Estimated Total Annual Burden Hours: 3,376

Estimated Total Annual Cost: \$84,704

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Frances Teel,

NASA PRA Clearance Officer.
